

FINANCING OF THE ASSOCIATION

Since the Association is an non-government association based on the freely expressed will of every individual to voluntarily become its member, it doesn't have any income from state budget.

Self-financing of the Association through paying its membership fee by all of its members is a proof that member recognize importance and need of existence of the Association.

Financial independence of the Association is achieved by regular payment of membership fees, and by that all possible forms of pressure and influences to work in case that the Association would have been depending on one source of income are prevented.

The membership fee is obligatory, but its amount is voluntary. By this every individual can define amount of the membership fee according to his/her real possibilities and to contribute to the creation of conditions for work and action of the Association.

Voluntarily paid funds by legal entities are expense, so it is exempt from paying of the corporation tax and they are reimbursed by the Donation contract.

ALL NECESSARY INFORMATION ABOUT PAYING ARE GIVEN IN THE ATTACHMENT (instructions for paying from the country or from abroad, Donation contract).
